Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claim 1, drawn to a lighted door, classified in class
 subclass 555.
- II. Claim 2, drawn to a handle with an internal I/O Port Hub, classified in class 703, subclass 25.
- III. Claim 3, drawn to a computer hard drive, classified in class 711, subclass4.
- IV. Claims 4 and 6, drawn to a computer chassis, classified in class 720, subclass 689.
- V. Claim 5, drawn to an LCD panel with particular display characteristics, classified in class 345, subclass 10. The inventions are distinct, each from the other because of the following reasons:

Inventions I-V are directed to related components of a computer. The related inventions are distinct if the inventions as claimed do not overlap in scope, i.e., are mutually exclusive; the inventions as claimed are not obvious variants; and the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect. See MPEP § 806.05(j). In the instant case, each of the groups are directed to components with separate searches and do not overlap with any interrelationship of component of the claimed subject matter.

An examination of this application reveals that applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

A listing of registered patent attorneys and agents is available on the USPTO

Internet web site http://www.uspto.gov in the Site Index under "Attorney
and Agent Roster." Applicants may also obtain a list of registered patent
attorneys and agents located in their area by writing to the Mail Stop OED,
Director of the U. S. Patent and Trademark Office, PO Box 1450,
Alexandria, VA 22313-1450
